

COSC 120 – Lab #5

Control Your Destiny.

Purpose: More practice with loops.

Tasks:

- 1.) Go to Blackboard and download lab5.java from the course website. Save it to your Desktop.
- 2.) Open BlueJ and start a new Project called Lab5. Make sure that if you are working on the lab computers that you are creating this project on your Desktop.
- 3.) Once created, add the class from lab5.java by going to Edit -> Add Class from File.
- 4.) Fill in the methods based on the description noted in the comments. You will also need to fill in code elsewhere. Read the comments to find out where.
- 5.) After the methods are complete, compile and run the main provided.
- 6.) Show your output to your TA.

Things needed: Loops, Scanner, println.
