

COSC 480 – Miniproject #4 Fall 13

Objective: Get some of those annoying merit badges done.

Implementation Details: For this project, your task is to complete 3 of the merit badges listed on the course website. If you've already completed one, or submitted a merit badge to be assessed, those do not count. For the purposes of this project, Magic Blue Smoke Monster also does not count. These are individual projects, but feel free to discuss any of the merit badges with your classmates.

DUE: All turnins or demonstrations need to be complete by the end of class 10/25.
