

COSC 251 – Lab #7

Ook?

Purpose: Use Ook! to create a simple adder.

Task: Utilizing the interpreter linked on the course website, create an Ook! program that gets two numbers (0-9) from the user, adds them together then outputs the result. You should test by adding 2 and 4 as well as 9 and 8.

You are required to work with a partner on this lab.

Deliverable: the file that contains your source.

Due: By the start of class Monday. No exceptions. To be turned in via Digital Dropbox.
