

COSC 251 – Lab #6

Cooking up a Calculator

Purpose: Use Chef to build a simple 4 function calculator.

Task: Utilizing pen (or pencil, if you prefer) and paper (or leather scrolls, if you prefer) create the code, in Chef, to build a simple 4 function calculator. It should get a number from the user, an operator, and then another number, and calculate the result. Don't worry about any input checking.

Deliverable: the piece of paper with your code.

Due: By the start of class Wednesday. No exceptions. To be turned in by hand.
